

## Activity-54: Place, Soil type and Crops.

### Tasks:

Discuss with you geography teacher(s) and find out the different kinds of soils present in our State and the different kinds of crops grown in it.

Tabulate your information as follows:

District	Soil type	Crops grown
1.		
2.		
3...		

### Questions/Concepts:

Now try figure out the following questions by discussing with your teachers:

1. Are there plants that can only grow in one particular kind of soil?
2. Are there any soil types that cannot support any plant life?
3. Are there plants which can grow in any kind of soil?
4. Are there plants which can grow in some but not all types of soils?
